# Fabric Fair

Iran International Fabric, Yarn, Textile, Garment  
and Related industries Exhibition

## About Exhibition:

The 4<sup>th</sup> Iran International Yarn, Fabric, Textile, Garment, and Related Industries Exhibition (Fabric Fair) will be held in **May 2026** at the **Shahr-e Aftab International Exhibition Center, Tehran**. With an expanded scope this year, the exhibition covers the entire textile and apparel value chain, including yarn, fabric, textile production, garment manufacturing, and related industries, featuring participants from Iran and other countries.

Organized by Nebras International Fair Management & Trade Promotion Co., the exhibition offers a professional platform for manufacturers, suppliers, brands, and traders to showcase their capabilities, explore business opportunities, connect with key industry players, and gain insight into the latest developments in local and global markets.

## Why should you attend?

Fabric Fair is the premier platform for functional textiles, strategically scheduled to align with the sourcing cycles of product and purchasing managers, material departments, and designers. As a fabric and accessory supplier, you can take part in this influential event to grow your business by connecting with international brand decision-makers at the ideal time to present your solutions and build long-lasting partnerships.

## Benefits

Turnkey booth concepts designed for your convenience.

Meet key industry players and connect with designers and purchasing managers.

Free admission and complimentary expert talk sessions are available to all trade fair visitors.

## Post Show

The 3<sup>rd</sup> Iran International Fabric and Textile Exhibition opened in Tehran on May 29 – June 1 2025. 65 companies; 62 from Iran and 3 from three other countries.

showcased their achievements in the Show In a covering space of more than 5000 m<sup>2</sup>. Figures on participants and visitors showed that this exhibition has attracted the attention of specialized companies active in this field.
